4.10 Risk Disclosure and Disclaimer

Investment process requires disciplined risk management. The Management Company will incorporate adequate safeguards for controlling risks in the portfolio construction process of ULPF. The risk control process involves reducing risks through optimal portfolio diversification. UBL Fund Managers believes that this diversification would help achieve the desired level of consistency in returns.

UBL Fund Managers investment team aims to identify securities following proper credit evaluation of the securities proposed to be invested in. It will be guided by the ratings of Rating Agencies such as Pakistan Credit Rating Agency or JCR-VIS Credit Rating Company Limited or any other rating agencies that may be registered with SECP from time to time or any other reputed international credit rating agencies.

Investors must realize that all investments in mutual funds and securities are subject to market risks. Our target return / dividend range cannot be guaranteed and it should be clearly understood that the portfolio of UBL Liquidity Plus Fund is subject to market price fluctuations and other risks inherent in all such investments. The risks emanate from various factors that include, but are not limited to:

(1) Government Regulation Risk - Government policies or regulations are more prevalent in some securities and financial instruments than in others. Funds that invest in such securities may be affected due to change in these regulations or policies, which directly or indirectly affect the structure of the security and/or in extreme cases a governmental or court order could restrain payment of capital, principal or income.

(2) Reinvestment Rate Risk - ULPF will maintain a short duration and maturity of its portfolio. In a declining interest rate economic environment, there is a risk that maturing securities will be reinvested at lower rates, which shall reduce the return of the Fund compared to return earned in the preceding months.

(3) Price Risk - The Fund bears minimal price risk because of its short duration. Fixed income Securities, which include treasury bills, pay fixed rate of return. The value of the fund, due to its holdings in such securities will rise and fall as interest rates change. For example, when interest rates rise, the value of an existing fixed income security may fall.

(4) Credit Risk - The risk that a security's issuer or the counter party in the case of reverse repurchase or other arrangement may not meet its obligation in full and/or on time to pay interest and repay capital or other financial obligations. Credit risk is comprised of default risk and downgrade risk. The Management Company shall help mitigate this risk by continuously reviewing the market conditions and shall also consider individual credit risks, but it may be understood that market value of fixed-income instruments will fluctuate with change in interest rate levels. Credit risk in ULPF will also be further mitigated as the minimum rating threshold is "AA".

(5) Performance Risk - Performance risk is the uncertainty relating to the performance of the fund with respect to its ability to earn consistent income stream as outlined in its investment objective. The NAV of the fund might go down.

(6) There may be times when a portion of the investment portfolio of the Scheme is not compliant either with the investment policy or the minimum investment criteria 0,1 the assigned 'Category'. This non-compliance may be due to various reasons including, adverse market conditions, liquidity constraints or investment specific issues. Investors are advised to study the latest Fund Manager Report specially portfolio composition and Financial Statements of the Scheme to determine what percentage of the assets of the Scheme, if any, is not in compliance with the minimum investment criteria of the assigned Category. The latest monthly Fund Manager Report as per the format prescribed by Mutual Funds Association of Pakistan (MUFAP) is available on the website of the Management Company and can be obtained by calling/writing to the Management Company ⁴
