2.9 Risk Disclosure

Investors must realize that all investments in mutual Funds and securities are subject to market risks. Our target return / dividend range cannot be guaranteed and it should be clearly understood that the portfolio of the Fund is subject to market price fluctuations and other risks inherent in all such investments. The risks emanate from various factors that include, but are not limited to:

Equity Risk - Companies issue equities, or stocks, to help finance their operations and future growth. The Company's performance outlook, market activity and the larger economic picture influence the price of a stock. Usually when the economy is expanding, the outlook for many companies is good and the stock prices may rise and vice versa.

Government Regulation Risk - Government policies or regulations are more prevalent in some securities and financial instruments than in others. Funds that invest in such securities may be affected due to change in these regulations or policies, which directly or indirectly affect the structure of the security and/or in extreme cases a governmental or court order could

restrain payment of capital, principal or income.

Credit Risk - Credit Risk comprises Default Risk and Credit Spread Risk. Each can have negative impact on the value of the income and money market instruments including Sukuks etc:

Default Risk - The risk that the issuer of the security will not be able to pay the obligation, either on time or at all;

Credit Spread Risk - The risk that there may be an increase in the difference between the return/markup rate of any issuer's security and the return/markup rate of a risk free security. The difference between this return/mark up rates is called a "credit spread". Credit spreads are based on macroeconomic events in the domestic or global financial markets. An increase in credit spread will decrease the value of income and including money market instruments;

Price Risk - The price risk is defined as when the value of the Fund, due to its holdings in such securities rises and falls as a result of change in interest rates.

Liquidity Risk - Liquidity risk is the possibility of deterioration in the price of a security in the Fund when it is offered for sale in the secondary market.

Settlement Risk – At times, the Fund may encounter settlement risk in purchasing / investing and maturing / selling its investments which may affect the Fund's performance etc.

Reinvestment Rate Risk – In a declining interest/ markup rate economic environment, there is a risk that maturing securities or coupon payments will be reinvested at lower rates, which shall reduce the return of the Fund compared to return earned in the preceding quarters.

Events Risk - There may be adjustments to the performance of the Fund due to events including but not limited to, natural calamities, market disruptions, mergers, nationalization, insolvency and changes in tax law.

Redemption Risk - There may be special circumstances in which the redemption of Units may be suspended or the redemption payment may not occur within six working days of receiving a request for redemption from the investor

Investor Concentration Risk - The Risk that the performance and liquidity of the Portfolio is adversely impacted due to a few large investors investing-in or redeeming from the fund over a short-time period. Factors contributing to such an adverse impact may include, but are not limited to, deviations in portfolio allocation, price impact of portfolio rebalancing, higher allocations in illiquid scripts etc.

Distribution Taxation Risk – Dividend distribution or Return of Capital to investors is liable to tax as per Income Ordinance 2001. The distributions are uniform across all units; therefore unit holders who invest in a fund before distribution of dividends may be liable to pay tax even though they may not have earned any gain on their investment.

Sharia non-compliance Risk - The risk associated with employing funds in investments that are not consistent with the Maqasid e Shariah.

4.3 Administrative Plan

Investors of the Fund may opt for any of the following Plans at any time to attain a regular income to support their liquidity requirements. All Units issued under both Plans shall rank pari passu with Units of the Fund.

A. Regular Periodic Income Payment Plan

Feature of the Plan:

<x>% of Investment Appreciation: The Unit Holders of this Plan shall receive income in cash (through redemption of units) to the extent of certain percentage of investment appreciation as specified by him in the investment form at the end of every regular interval (i.e. monthly, quarterly, semi-annually or annually).

However, where the investment value is equal to or less than the principal amount then the unit holder will only redeem the amount through redemption request.

In this Plan, the minimum cumulative investment holding required is **Rs.100,000 (Rupees One Hundred Thousand Only)**. If investment amount falls below than the above threshold at any time during the life of investment, features of this Plan will cease for the investor and Units allocated to him will be considered as Units of the Fund. However on attaining the same portfolio again i.e. **Rs.100,000 (Rupees One Hundred Thousand Only)**, the Plan's features will be available to Unit Holder

Note: Investment Appreciation means the increase in investment value during a given interval over the principal amount of investments.

Principal amount is the amount of investments as increased / reduced by investments / redemptions net off any Load and taxes thereon (if any).

B. Fixed Periodic Payment Plan

Feature of the Plan:

The Unit Holders of this Plan shall, at the time of purchase or beginning of a regular interval (i.e. monthly, quarterly, semi-annually, or annually), specify a fixed periodic payment amount required by them at regular intervals and authorize the Management Company to redeem (at the prevailing NAV) such number of units from their holding that in rupee terms is equivalent to the specified fixed amount required at the end of every regular interval. The amount so redeemed shall include investment appreciation, as well as principal amount.

Minimum amount of investment for **Fixed Periodic Payment Plan** would be **Rs. 100,000**. The Management Company may alter the minimum amount at its discretion by giving a prior notice of at least 30 days. However, enhancement in

current minimum monetary investments shall not take effect retrospectively. If investment amount falls below than the above threshold at any time during the life of investment, features of this Plan will seize for the investor and Units allocated to him will be considered as Units of the Fund. However on attaining the same portfolio again i.e. **Rs.100,000 (Rupees One Hundred Thousand Only)**, the Plan's features will be available to Unit Holder

Risk: In Fixed Periodic Payment Plan, the principal amount may be reduced in case sufficient returns are not earned by the Fund to cover the amount required by the Unit Holder. Therefore, the resulting payment may lead to the erosion of principal invested amount.

Process of Payment for A & B Plans

The payment shall be made by redeeming the required number of Units. The amount so redeemed shall be made through payment instruments or transferred to the designated bank account within six (6) working days of the redemption.

The payment shall be processed by the Management Company on the 25th of each month.
